

Bass Island Line

10 August 2018

# Bass Island Line Update – edition 70

## John Duigan capacity

*John Duigan* has been servicing King Island for three months now and feedback from customers has been very positive.

Schedule adjustments have worked well and the vessel is meeting the freight needs of the people and businesses of King Island.

In providing a vessel that has an increased capacity Bass Island Line (BIL) planned for the future and growth in exports from the island.

On average *John Duigan* sails at around 70% of total capacity. This provides an opportunity for King Island farmers and businesses to increase export volumes.

If your business would like to increase the volumes shipped on *John Duigan* just call your booking agent to discuss.

Agents can be contacted on:
